by acute weakness in the Interborough-Metropolitan stocks on account of the morning's report of new bidders for the construction of subways under the eastern portion of the city. The con-jecture of powerful railroad backing for this new project gave its force, al-though the rumor that the New York, New Haven and Hartford was em-barked in the enterprise was without confirmation. The local traction group was affected more or less in sympa-thy. News was little regarded, although a rise in copper quotations at the New York metal exchange and in the London market may have had some steadying influence on Amatgamated Copper. A similar effect on United States Steel was due possibly to a statement credited to Chairman Gary that a \$10,000,000 battleship order had been placed with the Bethlehem Steel company by the Argentine government and a revivilying effect on the steel trade might be expected to result. In the evening, the visitors did their big work when they were matched up with Norwich Warriors, the match beginning at 8 o'clock before an enthusiastic crowd. The Providence men hit their high gait in the first string, Levy getting his record single and the five rolling a total of 527, which was the best of their visit. They took the match three straight, The Warriors were not 9p to form, having a chance to take the last string, but Slocum, Levy, and Neilan piled up opportune spares in the last few boxes and pulled their team into the lead. Captain Harris showed best for the Warriors, but even he was much below his game.

Lipman Team Made World's Record in Five-Men Class.

The soldier association football players from Fort Trumbull will arrive here this afternoon on the 2.15 trolley to play the Norwich association football club in their second game of the season at Sachem park. The soldiers are said to be a husky lot, and posted in the game as well, so that they ought to give the local men a hard rub. The kickoff is at 3 o'clock with the Norwich team playing the following lineup: Goal, H. Finlayson; backs, Andrews and Ferguson; halves, Garrett, Critchley, Corners; forwards, A. Finlayson Hilton, Brown, McComb, and Buckley.

Pennsylvania's Poor Crew Prospects.

Pennsylvania's crew prospects are anything but encouraging this year. With only a very small minority of last year's crew back at college, and with nothing more than a mediocre freshman squad coming in to fill their places, the conditions are such as to discourage even Coach Ellis Ward. And with a lack of enthusiasm for rowing which does not decrease as the season approaches the chances for the red and blue crews in the intercollegiate regatta at Poughkeepsis appear to grow even less bright as the time for outdoor work on the river draws near.

## THE BEST Life Insurance Company

The Mutual Benefit Life Insurance Company of Newark, New Jersey, the first to do business in Connecticut.

What has it done for our people and the people of other states in its sixtyfour years of service to its policyholders?

Is its claim that it is the best company substantiated by the facts of its results?

A life insurance company is to be judged by what it accomplishes for its members. Just as the value of the character of an individual is measured by his usefulness to his family and his community, so is the fiduciary or commercial institution measured by its service to those who have contributed to its funds.

With this basic fact in mind, it is demonstrable that The Mutual Benefit is the best life insurance company; it is best because it has accomplished more for its members than any other company,

This does not mean for a part of its membership -those only who mature their policies-but for all its members. Life insurance companies have had three classes of policy holders; those who have carried their policies to maturity, those whose policies have lapsed and those whose policies are in force today. The results that have been schieved for all three classes of its members form the criterion by which a company should be judged

For the purpose of examining the record of The Mutual Benefit Company upon this basis I am prepared to furnish to those interested our statements of account with members from each class.

I am prepared to show that all three classes of The Mutual Benefit Company's membership have been protected against forfeiture by the terms of their

I am prepared to show that lapsed members have received their due share of their contribution, and that persisting members had profitable investments

Had The Mutual Benefit practiced a system of forfeiture like other companies, it could have shown being mutual in fact as well as in name it has protected the moral as well as the legal rights of all of its policyholders. \*

Competition and legal enactment have forced other companies to more nearly meet The Mutual Benefit upon this ground of pure equity, but The Mutual Benefit contract today is still in advance of that of any other company, and no company has a record of achievement nearly equalling it.

I shall be pleased to furnish a specimen contract and other information to any one interested.
